Summary

Computer Science student passionate about cybersecurity and penetration testing with hands-on experience in web and Android security. Experienced in vulnerability assessment and exploitation through labs, CTFs, and real-world testing. Reproduced and validated the CVE-2025-0133 reflected XSS vulnerability on an AT&T GlobalProtect portal during independent security testing. Seeking a penetration testing internship to gain real-world VAPT experience.

Skills

- Cybersecurity: Penetration Testing (VAPT), Android Pentesting, Vulnerability Assessment, CVE Research, Network Enumeration, Exploitation Techniques
- Tools: Nessus, Burp Suite, ZAP, Nikto, Jadx, Metasploit, Hydra, Nmap, Wireshark
- Security Practices: OWASP Top 10, Packet Analysis, Log Analysis.
- Web Dev: HTML5, CSS3, JavaScript, PHP, MySQL, Node.js (learning)
- Web Vulnerabilities: Cross-Site Scripting (XSS), SQL Injection (SQLi), Broken Access Control (BAC), Information Disclosure and more
- Programming/OS: C, C++, C#, Embedded C, Python, Git, Windows, Kali Linux
- Languages: Arabic (Native), English (Fluent), German (A2)

Experience

Orange Digital Center Egypt – Cairo, Egypt - Onsite

Android Pentesting Intern | Jan 2026 – Feb 2026

- Completed hands-on Android mobile security and penetration testing training.
- Performed static and dynamic analysis on vulnerable Android apps.
- Used JADX, Frida, and ADB for reverse engineering and runtime testing.
- Identified insecure storage, exported components, and misconfigurations.
- Tested vulnerable apps including BeetleBug, DIVA, AndroGoat, and AllSafe in controlled lab environments.
- Produced technical vulnerability write-ups and mitigation guidance.

Teleperformance – Cairo, Egypt - Hybrid

Customer Service Agent | 2025 – 2026

- Enforced data privacy and account security protocols in customer interactions.
- Identified and escalated suspected social engineering attempts.
- Ranked in top 10% for accuracy and compliance adherence.

PBS – Cairo, Egypt – Remote

Cold Caller | 2024

Freelance AI Trainer – Remote

AI Data Contributor | 2023

- Supplied German training data, improving model accuracy

Digital Egypt Marvels Initiative (DEMI) – Cairo, Egypt - Onsite

Content Creator & CS Educator | Dec 2025

- Created 56 English educational videos in 3 days for Grades 4–5, covering python basics, basic ML concepts, and introductory robotics.
- Simplified technical concepts for young learners to support early digital literacy.

Projects

- Kioptrix Pentest Report: Performed full penetration test including reconnaissance, SQLi exploitation, and privilege escalation
- PHP Online Shop: Secure e-commerce with auth, cart & admin panel.
- ATmega32 Drivers & App: Developed drivers (ADC, UART, SPI) for automated temp control.
- Prison Management System (C#): Desktop system for inmate & staff management.
- Flutter Attendance Mobile Application: Built a cross-platform attendance system using Flutter, integrated with a .NET REST API and SQL database. Implemented role-based access (Parent/Teacher), authentication, QR-based attendance scanning, real-time data retrieval, and CSV report export.

Education

B.Sc. Computer Science – El Shorouk Academy, Cairo

Expected Graduation: July 2027

Certifications

- Ethical Hacker | Cisco Networking Academy | Feb 2025
- Cybersecurity Academy | MCIT & NTI | Sep 2025
- Android Pentesting Internship | ODC | 2026
- CCNA v7 | NTI Egypt
- Embedded Level 1 | ODC | Sep 2024
- LinkedIn Learning: Speaking Effectively (2021)
- Barmej: Intro to Terminal (2021)
- German A1–A2 | Busuu (2021)
- Robotics Winner (ROBOGEEKS 0.2) | Innovation Club (2017)
